Disease precaution

Disease	Precaution_1
Drug Reaction	stop irritation
Malaria	Consult nearest hospital
Allergy	apply calamine
Hypothyroidism	reduce stress
Psoriasis	wash hands with warm soapy water
GERD	avoid fatty spicy food
Chronic cholestasis	cold baths
hepatitis A	Consult nearest hospital
Osteoarthristis	acetaminophen
(vertigo) Paroymsal Positional Vertigo	lie down
Hypoglycemia	lie down on side
Acne	bath twice
Diabetes	have balanced diet
Impetigo	soak affected area in warm water
Hypertension	meditation
Peptic ulcer diseae	avoid fatty spicy food
Dimorphic hemmorhoids(piles)	avoid fatty spicy food
Common Cold	drink vitamin c rich drinks
Chicken pox	use neem in bathing
Cervical spondylosis	use heating pad or cold pack
Hyperthyroidism	eat healthy
Urinary tract infection	drink plenty of water
Varicose veins	lie down flat and raise the leg high
AIDS	avoid open cuts
Paralysis (brain hemorrhage)	massage
Typhoid	eat high calorie vegitables
Hepatitis B	consult nearest hospital
Fungal infection	bath twice
Hepatitis C	Consult nearest hospital
Migraine	meditation
Bronchial Asthma	switch to loose cloothing
Alcoholic hepatitis	stop alcohol consumption
Jaundice	drink plenty of water
Hepatitis E	stop alcohol consumption
Dengue	drink papaya leaf juice
Hepatitis D	consult doctor
Heart attack	call ambulance
Pneumonia	consult doctor
Arthritis	exercise
Gastroenteritis	stop eating solid food for while
Tuberculosis	cover mouth

Disease precaution

Precaution_2	Precaution_3
consult nearest hospital	stop taking drug
avoid oily food	avoid non veg food
cover area with bandage	
exercise	eat healthy
stop bleeding using pressure	consult doctor
avoid lying down after eating	maintain healthy weight
anti itch medicine	consult doctor
wash hands through	avoid fatty spicy food
consult nearest hospital	follow up
avoid sudden change in body	avoid abrupt head movment
check in pulse	drink sugary drinks
avoid fatty spicy food	drink plenty of water
exercise	consult doctor
use antibiotics	remove scabs with wet compressed cloth
salt baths	reduce stress
consume probiotic food	eliminate milk
consume witch hazel	warm bath with epsom salt
take vapour	avoid cold food
consume neem leaves	take vaccine
exercise	take otc pain reliver
massage	use lemon balm
increase vitamin c intake	drink cranberry juice
use oinments	use vein compression
wear ppe if possible	consult doctor
eat healthy	exercise
antiboitic therapy	consult doctor
vaccination	eat healthy
use detol or neem in bathing water	keep infected area dry
vaccination	eat healthy
reduce stress	use poloroid glasses in sun
take deep breaths	get away from trigger
consult doctor	medication
consume milk thistle	eat fruits and high fiberous food
rest	consult doctor
avoid fatty spicy food	keep mosquitos away
medication	eat healthy
chew or swallow asprin	keep calm
medication	rest
use hot and cold therapy	try acupuncture
try taking small sips of water	rest
consult doctor	medication

Precaution_4
follow up
keep mosquitos out
use ice to compress itching
get proper sleep
salt baths
exercise
eat healthy
medication
salt baths
relax
consult doctor
avoid too many products
follow up
consult doctor
get proper sleep
limit alcohol
consume alovera juice
keep fever in check
avoid public places
consult doctor
take radioactive iodine treatment
take probiotics
dont stand still for long
follow up
consult doctor
medication
medication
use clean cloths
medication
consult doctor
seek help
follow up
medication
medication
keep hydrated
follow up

follow up
massage
ease back into eating
rest

Symptoms
Itchy skin, particularly on the hands and feet
Abdominal pain, bleeding, organ dysfunction
Intense itching, especially at night, small blisters or bumps
Cloudy or hazy eyes, excessive tearing, sensitivity to light
Avoidance or restriction of certain foods or entire food groups, significant weight loss or failure to gain weight
Headache, confusion, dizziness, nausea or vomiting, seizures, weakness or numbness
Nausea, vomiting, drowsiness, dizziness, confusion, seizures, changes in heart rate, low blood pressure, respiratory distre
Lower abdominal pain and discomfort occurring around the time of ovulation
Eye redness, pain or discomfort, blurred or decreased vision, increased sensitivity to light
Blurred distance vision, eyestrain, squinting
Cough with phlegm or pus, chest pain, fever, shortness of breath, fatigue
Developmental delays, intellectual disability, hearing loss, vision problems, heart defects, liver or spleen enlargement, rash
Red, raw, or inflamed skin in skin folds (such as armpits or groin), itching or burning sensation
Red, swollen, itchy bumps
Severe and chronic pain, often in the limbs, with associated swelling, changes in skin color or temperature, abnormal swea
Excessive worrying, restlessness, increased heart rate, panic attacks
Heartburn, acid reflux, chest pain
Severe pain, swelling, deformity, bruising, difficulty moving or using the affected area
Redness, Pain, tenderness, Swelling, Skin changes, Lymph node enlargement
Pain during bowel movements, rectal bleeding
Shooting or burning pain, tingling or numbness
cough, sore throat, runny nose, sneezing
Rash, itching, swelling, difficulty breathing, gastrointestinal symptoms
Shortness of breath, dry cough, fatigue
Increased blood sugar levels, increased ketone production, excessive thirst, frequent urination, fatigue, confusion, fruity br
Frequent or constant dribbling of urine, inability to completely empty the bladder, weak urine stream
Abdominal pain, tenderness, bruising, swelling, difficulty breathing, nausea, vomiting, changes in bowel movements, blood
Excessive hair growth in women
Sharp, shooting pain along the affected nerve
Painless lump or swelling, Facial changes
Gradual hearing loss, difficulty hearing high-pitched sounds, speech sounds muffled or unclear
Compulsive use of opioids, strong desire or cravings for opioids, inability to control or reduce opioid use, withdrawal sympt
Palpitations, Sweating, Trembling, Shortness of breath, Fear of losing control, Dizziness
Difficulty swallowing, unintentional weight loss, chest pain, hoarseness
Slurred speech, impaired coordination, confusion
Pain or discomfort in the tailbone area, swelling, redness, drainage of pus or blood, abscess formation
High blood sugar levels during pregnancy
Anxiety, restlessness, irritability, tremors, sweating, nausea, vomiting, insomnia, drug cravings
Growth deficiencies, facial abnormalities, developmental delays, intellectual disability
Increased red blood cell count, fatigue, headache, dizziness, itching, enlarged spleen
Joint pain, stiffness, swelling
Severe neck pain, swelling, tenderness, difficulty moving or turning the head, numbness or weakness in the arms or legs
Sudden, brief muscle contractions or jerks, often affecting the arms, legs, or face
Abdominal pain or discomfort, difficulty swallowing, choking or gagging, drooling, nausea or vomiting, loss of appetite, che
Chest pain or discomfort (angina), shortness of breath, fatigue, irregular heartbeat, dizziness, nausea, sweating, jaw or arm
High blood pressure, chest pain or discomfort, shortness of breath, fatigue
Swollen salivary glands (usually parotid), fever, headache, fatigue
Ear pain, hearing loss, ear drainage, dizziness or vertigo, tinnitus
Abdominal pain, high blood pressure, kidney cysts
Joint pain, swelling, stiffness, limited range of motion, fever, rash
Abnormal positioning of the urethral opening on the underside of the penis, penile curvature, spraying of urine, difficulty in
Swelling, pain, dry mouth, bad taste

Difficulty swallowing
Repeated regurgitation and re-chewing of food
Persistent cough with yellow or green mucus, chest congestion, fatigue
Inflammation of the glans penis (tip of the penis), redness, swelling, pain
Vaginal bleeding, abdominal pain or cramping, shoulder pain (if the fallopian tube ruptures)
Difficulty breathing, rapid breathing, chest pain
Extreme weight loss, fear of gaining weight, distorted body image
Elevated levels of gamma globulins in the blood, may be asymptomatic or associated with other underlying conditions
High blood pressure during pregnancy
Eye pain, blurred vision, sensitivity to light
Gradual loss of peripheral vision, tunnel vision
Depends on the specific cranial nerve involved; symptoms can include vision changes, eye movement abnormalities, facia
Eye pain, redness, foreign body sensation, sensitivity to light
Heartburn, chest pain, difficulty swallowing
increased thirst, frequent urination, fatigue
Heavy or prolonged menstrual periods, pelvic pain or pressure, frequent urination, difficulty emptying the bladder, constipa
Severe eye pain, headache, blurred vision, halos around lights, nausea and vomiting
Persistent head pain, tension in neck and shoulders
Decreased urine output, fluid retention, fatigue
Sore throat, fever, rash (red, sandpaper-like), swollen glands
Chest or back pain, shortness of breath, hoarseness, difficulty swallowing
Thickening of the skin, Raynaud's phenomenon
Heel pain, especially when walking or standing, tenderness, swelling, inflammation of the surrounding tissue
Metabolic acidosis, apid breathing, rapid heart rate, confusion, headache, dizziness, seizures
Persistent consumption of non-food substances
Vaginal bleeding, cramping, abdominal pain, nausea, fatigue, emotional distress
Mild to moderate head pain, tightness or pressure sensation on both sides of head
cough, weight loss, fever, night sweats
Difficulty or poor urinary stream, urinary tract infections, urinary frequency or urgency, abdominal distension, poor weight g
Fatigue, weight gain, constipation, dry skin, depression, muscle aches and stiffness, sensitivity to cold
Tremors, stiffness, slowness of movement
Absence or undescended testicle(s), empty scrotum, smaller or underdeveloped testicle(s), inguinal hernia, abnormal posi
Painless fluid-filled swelling in the oral cavity
Fever, chest pain, productive cough with foul-smelling or bloody sputum
Visible bulge or swelling, discomfort or pain
Joint swelling, pain, warmth, limited range of motion
Lower back pain, discomfort in the pelvic area
Sudden, involuntary muscle contractions, muscle pain, stiffness, limited range of motion
Abdominal pain, bloating, changes in bowel movements
Dry, flaky skin with itching
Cravings for alcohol, inability to control or limit alcohol consumption, withdrawal symptoms (such as tremors, anxiety, swea
Progressive muscle weakness and degeneration, difficulty walking or moving, muscle wasting
Itching and irritation in the vagina and vulva, redness and swelling of the vulva, white, thick, clumpy vaginal discharge (res
Fragile bones, loss of height over time, back pain, fractures
Excessively concentrated urine, low blood sodium levels
Muscle weakness, fatigue, difficulty speaking
Neck pain, stiffness, and abnormal head positioning
Intense burning pain, swelling, changes in skin temperature
Nausea, vomiting, diarrhea, abdominal pain or cramps, fever
Eye redness, severe eye pain, blurred vision
Fatigue, jaundice, abdominal swelling (ascites), easy bruising and bleeding, confusion, loss of appetite, weight loss
Chest pain (sharp or dull), difficulty breathing or shortness of breath, rapid or shallow breathing, coughing up blood or pink
Blurred or hazy vision, eye pain or discomfort, redness or irritation of the eye, excessive tearing, sensitivity to light (photop

Lump, swelling, Difficulty, pain when swallowing and speaking, Facial weakness, Facial paralysis
Tingling, numbness, and pain in the hand and fingers
Blurred or distorted central vision, blind spots
Vaginal dryness, Vaginal burning, frequent urination, urinary tract infections, Painful intercourse
Joint pain, stiffness, swelling, reduced range of motion
Weakness, numbness, tingling in limbs
Intense itching, visible lice or nits in the affected area
Gait disturbances, urinary incontinence, cognitive decline or dementia-like symptoms
Severe pain in the side or back, blood in the urine, frequent urination
Various symptoms depending on the specific disorder, including hormonal imbalances
Yellowish or white growth on the conjunctiva (eye's surface), usually near the cornea
High fever, body aches, fatigue, cough, sore throat, congestion
Swollen lymph nodes, fever, fatigue, headache, rash
Severe nausea and vomiting during pregnancy
Blurred or distorted vision, floaters, impaired color vision, dark or empty areas in the visual field, vision loss
Fatigue, pale skin, frequent infections, shortness of breath, rapid or irregular heartbeats, prolonged bleeding or bruising
Fatigue, abdominal pain or swelling, jaundice, neurological symptoms (tremors, difficulty speaking or walking)
Sedation, drowsiness, slurred speech, confusion, respiratory depression
Difficulty falling asleep or staying asleep, daytime sleepiness, irritability, difficulty concentrating
Ear pain (particularly behind the ear), swelling and redness of the ear or the area behind the ear, fever, headache, hearing
Lump, swelling, Facial changes
Joint pain, stiffness, swelling
Swelling, pain, dry mouth, bad taste
Sore throat, difficulty swallowing, swollen lymph nodes
Chest pain (sharp and stabbing), worsens with deep breaths or lying down, fever
Dizziness, low blood pressure, slow heart rate, nausea, vomiting
Fatigue, weight gain, sensitivity to cold, dry skin, constipation, depression, muscle weakness, elevated cholesterol levels
White patches or plaques in the mouth, often on the tongue or inside of the cheeks, that cannot be scraped off
Red, itchy, and oily patches of skin, dandruff, flaky scalp
Headache, nausea, vomiting, cognitive or developmental problems, enlarged head in infants
Impaired memory and cognition, altered judgment, anxiety
Ear pain, hearing loss, recurrent ear infections
Growth on the conjunctiva (white part of the eye)
Confusion, forgetfulness, personality changes, tremors
Chest pain, swelling and tenderness of the cartilage connecting the ribs to the breastbone
Nasal congestion, runny nose, sneezing, facial pain or pressure, loss of smell
Elevated intraocular pressure, visual field loss
Muscle wasting, fatigue, weakness, delayed wound healing, swelling of the limbs, hair loss, impaired immunity
Easy bruising, prolonged bleeding from cuts, petechiae (red or purple spots on the skin), nosebleeds, excessive menstrua
Hair loss or balding, patchy or generalized hair loss
Muscle pain and stiffness, joint pain, fatigue
Bone pain, fractures, fatigue, unexplained weight loss
High blood pressure, proteinuria, swelling, headaches, visual disturbances
Shortness of breath, especially during physical activity or exertion, chest pain or discomfort, dizziness or lightheadedness,
Fatigue, abdominal swelling or pain, enlarged liver, elevated liver enzymes, insulin resistance
Fatigue, weight loss, organ dysfunction
Decreased urine output, swelling in the legs and ankles, and signs of fluid overload, Severe kidney damage
Chest pain, difficulty breathing, tenderness or swelling over the ribcage
Breast lump, changes in breast size or shape, nipple changes, breast pain
Optic neuritis (vision loss, pain with eye movement), transverse myelitis (weakness, numbness, or paralysis of the limbs, l
Double vision, Eye fatigue, Poor depth perception, Head tilting
Vertigo, hearing loss, tinnitus, ear fullness
Headaches, vision problems (such as blurred vision or loss of peripheral vision), hormonal imbalances (such as excessive

Severe abdominal pain, bloody stools, diarrhea, nausea, vomiting, fever, rapid heart rate, low blood pressure
Swelling of the scrotum
Abnormal vaginal bleeding, pelvic pain or discomfort, changes in bowel or bladder habits
Pelvic pain, painful periods, infertility
Flank pain, urinary frequency, swelling in the abdomen
Facial weakness or paralysis, drooping of the mouth or eyelid
Pain, swelling, redness, discharge from the nose
Frequent urination, urgency, pelvic pain
Shortness of breath, wheezing, chronic cough, chest tightness, fatigue, weight loss
Muscle stiffness, tremors, involuntary movements
Inflammation of blood vessels leading to various symptoms depending on the affected organs, including rash, fever, fatigu
Inability to conceive after one year of unprotected intercourse, irregular or absent menstrual cycles, hormonal imbalances,
Muscle weakness, loss of sensation, chronic pain
Hemangioblastomas (tumors in the brain, spinal cord, or other organs), retinal angiomas (abnormal blood vessel growth in
Swollen, itchy, or painful veins in the rectal area
Joint pain, swelling, tenderness, limited range of motion
Increased appetite, relaxation, altered perception of time, impaired memory and concentration, bloodshot eyes, anxiety or
Fatigue, dizziness, fainting, chest pain or discomfort, shortness of breath, irregular heart rhythms
Fatigue, weakness, pale skin, shortness of breath, jaundice
Sedation, relaxation, reduced anxiety, drowsiness, poor coordination, memory impairment, withdrawal symptoms (such as
Fatigue, shortness of breath, heart palpitations
Enlarged, swollen veins, often in the legs
Frequent episodes of stone formation
Elevated intraocular pressure without optic nerve damage
Most colonic polyps do not cause symptoms. Some larger polyps or certain types may cause rectal bleeding or changes in
Abdominal pain, bloating, heartburn, nausea, acidic taste
Severe eye pain, blurred vision, halos around lights
Shaking, dizziness, confusion, sweating
Sharp pain, tingling, or numbness that radiates from the lower back through the hips and down the leg
Fatigue, Increased hunger, Slow healing of wounds
Persistent cough with thick mucus, recurrent lung infections, poor growth or weight gain, salty-tasting skin
Low blood sugar (hypoglycemia) symptoms (e.g., confusion, sweating)
Severe sore throat, difficulty swallowing, fever, swollen tonsils, voice changes, neck pain or stiffness
Skin sores, fever, weight loss, enlarged spleen or liver
Shortness of breath, cough, wheezing, fatigue, chest discomfort or tightness
Muscle twitches or cramps, fatigue, weakness, loss of appetite, nausea, vomiting, irritability, mental confusion, irregular he
Shoulder pain, swelling, limited range of motion
Redness, warmth, swelling, and tenderness along a vein, pain or discomfort, skin discoloration, visible veins, fever
Headache, fever, confusion, seizures, neurological symptoms
Respiratory distress, chest pain, confusion, petechial rash (small red or purple spots), neurological symptoms
Painful lump or swelling on the eyelid, redness, tenderness
Knee pain, swelling, inability to straighten the leg
Redness, itching, watery discharge, swollen eyelids
Easy bruising, prolonged bleeding after injury or surgery, excessive bleeding from minor cuts or abrasions, frequent noseb
Lack of menstrual periods
Severe headaches, nausea, sensitivity to light and sound
Jaw pain or tenderness, clicking or popping sounds in the jaw joint, difficulty chewing or opening the mouth
Night blindness, dry eyes, dry or rough skin, poor wound healing, weakened immune system
Fatigue, weakness, weight loss, low blood pressure, abdominal pain
Blurred or distorted vision, eye strain, headaches,uneven curvature of cornea
Gradual loss of vision, visual field defects
throbbing headache
Foot pain or achiness, difficulty with foot and ankle movement, foot fatigue, swelling

Headache, dizziness, nausea, confusion
Eye pain, swelling, redness, vision changes
Cough, shortness of breath, wheezing, chest pain, fever, night sweats, fatigue, weight loss, elevated eosinophil count in th
Nausea, vomiting, diarrhea, neurological symptoms
Itchy, red, inflamed skin, rash
Cough, fever, chest pain, difficulty breathing
Chronic diarrhea, weight loss, abdominal pain or bloating, nutrient deficiencies (vitamins, minerals), fatigue, failure to thriv
Reduced hearing sensitivity, muffled or blocked sound
Itching around the anus or vagina, restless sleep, irritability, anal or vaginal discharge, abdominal pain or discomfort, loss
Swollen blood vessels in the esophagus, vomiting blood, black, tarry stools
Sunburn-like rash, redness, itching
Painful urination, abnormal discharge from the genitals, pelvic pain
Facial pain or pressure, nasal congestion, thick nasal discharge, postnasal drip, cough, fatigue
Headache, dizziness, nausea or vomiting, confusion, memory problems, sensitivity to light or noise, mood changes
Fatigue, weakness, bone pain, frequent urination, kidney stones
Sore throat, fever, painful sores or blisters in the mouth and throat, difficulty swallowing, loss of appetite
Neurological symptoms that cannot be explained by a medical condition or injury, such as paralysis, blindness, seizures, c
Swelling in arms or legs, feeling of heaviness or tightness
Chronic constipation, abdominal distension, failure to pass meconium (in newborns)
Joint pain, stiffness, swelling, fatigue, loss of appetite
Short stature, Gonadal dysgenesis, Webbed neck, Lymphedema
Pain radiating from the lower back to the leg
Eye pain, redness, swelling, blurred vision, decreased vision, floaters (dark spots or cobwebs in the vision), increased sen
Fatigue, frequent infections, easy bruising or bleeding
Skipped or extra heartbeats, palpitations, lightheadedness
Severe swelling of the floor of the mouth, fever, difficulty swallowing, drooling
Headache, fever, fatigue, cough, meningitis, pneumonia
High blood pressure, increased need to urinate, swelling in the legs and ankles, fatigue, nausea, loss of appetite
Mood swings, bloating, breast tenderness, irritability
Increased energy and alertness, decreased appetite, rapid heartbeat
Sudden, intense urge to urinate followed by involuntary urine leakage
High fever, severe headache, joint and muscle pain, rash, nausea or vomiting, bleeding tendencies
Fatigue, abdominal pain, joint pain, memory loss or cognitive difficulties, developmental delays (in children), anemia
Rough, scaly patches on the skin, usually in sun-exposed areas
Abdominal pain (often in the upper right quadrant), jaundice, dark urine, pale stools, nausea, vomiting, endoscopic retrogra
Persistent sore throat, difficulty swallowing, voice changes, ear pain, neck mass, weight loss
Dry mouth and eyes, fatigue, joint pain, dry skin
Severe abdominal pain, tenderness, bloating, fever, nausea, vomiting, loss of appetite, increased heart rate
Fatigue, weakness, pale skin, shortness of breath, decreased exercise tolerance
Sudden and severe abdominal or pelvic pain on one side, sharp or stabbing pain, nausea, vomiting, fever, rapid heartbeat
Lower back pain, leg pain, numbness or tingling
Joint pain, fatigue, skin rashes
Yellowing of the skin and eyes, pale stools, dark urine
Abdominal pain, vomiting blood, bloody or black stools
Swelling, severe pain, inability to bear weight
Small lump or swelling in the vaginal wall, discomfort or pain during intercourse
Obsessive focus on "clean" eating, healthy food choices
Frequent urination, burning sensation during urination, cloudy or bloody urine, pelvic pain
Vaginal bleeding, painless bleeding in the third trimester
Severe upper abdominal pain, nausea, vomiting, fever, rapid pulse, swollen and tender abdomen, jaundice
Swollen, red, tender gums, bleeding gums
Chest pain, shortness of breath, palpitations
Itching and visible presence of lice or nits (eggs) in the hair

Persistent hunger, Weight loss, Dehydration, Visible peristalsis, Palpable mass, Fussiness
Blurred vision, halos around lights, eye pain
Swelling, pain, redness, fever, pus formation
Muscle weakness, pain, inflammation
Easy or excessive bruising, prolonged or excessive bleeding from cuts or injuries, frequent nosebleeds, heavy or prolonge
Nausea, vomiting, early satiety, bloating, abdominal pain, poor appetite
Painful ulcers or sores on the genital area, swollen lymph nodes in the groin
Rash, itching, redness, peeling skin
Increased energy and alertness, euphoria, decreased appetite, increased heart rate and blood pressure, insomnia, restles
Extreme fatigue, cognitive difficulties, unrefreshing sleep
Vaginal bleeding, abdominal cramps, pelvic pain
Gradual vision loss, peripheral vision impairment, eye pain or discomfort, halos around lights
Raised, itchy welts on the skin
Floaters in vision, blurry vision, eye pain
Recurrent episodes of binge eating without compensatory behaviors
High levels of cholesterol in the blood, fatty deposits (xanthomas) on the skin or tendons, chest pain or angina, heart attac
Unintentional urine leakage during physical activity
Vertigo, dizziness, nausea, hearing loss, ear pain
Persistent depressive symptoms (low mood, lack of interest, changes in sleep and appetite), lasting for at least two years
Nausea, vomiting, abdominal pain, General malaise, weakness, Increased thirst, frequent urination
Impulsive behaviors (e.g., gambling, stealing), difficulty resisting urges
Severe headache, nausea or vomiting, changes in vision, loss of consciousness, seizures
Persistent feelings of sadness, emptiness, or hopelessness, frequent crying, irritability, loss of interest or pleasure in activi
Pain, swelling, bruising, difficulty walking
Sudden numbness or weakness of the face, arm, or leg (typically on one side of the body), confusion, trouble speaking or
Motor, cognitive, and psychiatric symptoms
Fatigue, sore throat, swollen lymph nodes
Altered perception of reality, visual or auditory hallucinations, changes in sensory experiences, introspective thoughts, feel
Headaches, nausea, seizures, changes in coordination or balance
Swollen lymph nodes, unexplained weight loss, fatigue
Painful urination, frequent urination, pelvic pain, cloudy urine
Sudden onset of neurological symptoms that resolve within 24 hours
Gradual loss of vision, visual field defects
Fatigue, weight changes, mood swings, dry skin
Blood in urine, frequent urination, pelvic pain
Pain, swelling, deformity, limited mobility or difficulty moving the arm, bruising
Painless swelling, usually on the lower lip or floor of the mouth
Decreased urine output, fluid retention, fatigue, shortness of breath, nausea, confusion, chest pain, seizures
Fever, fatigue, body aches, heart and digestive problems
Fatigue, pale skin, frequent infections, easy bleeding or bruising
Frequent urinary tract infections, urinary urgency or frequency, bedwetting (in children), high blood pressure (in severe cas
Pelvic pain (during menstruation, intercourse, or bowel movements), heavy menstrual bleeding, infertility
Red, scaly patches on the skin, itching
Redness, swelling, warmth, pain or tenderness at the wound site, pus or drainage from the wound, fever, malaise
Fatigue, weakness, pale skin, shortness of breath
Neck or back pain, stiffness, limited range of motion, numbness or weakness in the extremities
Ear pain, fever, fluid drainage from the ear, hearing loss or muffled hearing in the affected ear
Pain, Swelling, Bruising, Deformity, Difficulty moving, Loss of function
Sharp or aching pain in the lower abdomen or groin
Challenges with social interaction, communication difficulties, restricted interests or repetitive behaviors
Painless lump or swelling, Facial changes
Hearing loss (gradual and progressive), tinnitus (ringing in the ears), dizziness or balance problems
Recurrent episodes of binge eating followed by purging behaviors

Nausea, vomiting, abdominal pain, liver or kidney damage, dizziness, confusion, respiratory distress
Hypocalcemia (low calcium levels), tetany (muscle spasms), short stature, rounded face
Redness, itching, rash, blistering
Fatigue, weakness, shortness of breath, pale skin
Excessive sweating (beyond what is necessary for temperature regulation), typically in specific areas (such as palms, sole
Ear pain, fever, fluid drainage from the ear
Abdominal or flank pain, blood in urine, frequent urination
Surgical site pain, discomfort, swelling
Persistent knee pain, stiffness, swelling, limited range of motion
Abdominal pain, nausea, vomiting, bloating, constipation, bloody stool
Fatigue, swollen and bleeding gums, joint pain
Severe abdominal or back pain, blood in urine, frequent urination, pain during urination
Pain, swelling, bruising, deformity, restricted range of motion, difficulty gripping or using the finger
Floaters (spots or cobweb-like shapes in vision), flashes of light, curtain-like shadow over vision, sudden vision loss
Joint pain, fever, rash, heart inflammation
Wheezing, shortness of breath, chest tightness
Persistent pain or discomfort in the vulva, burning, stinging, rawness, itching
Symptoms that do not meet the full criteria for a specific eating disorder
Fatigue, weakness, pale skin
Painful blisters on the skin and mucous membranes
Primary stage: painless sores (chancre) at the site of infection, secondary stage: skin rash, fever, swollen lymph nodes, so
Redness, swelling, discharge, foul odor around the umbilical area
Abnormal vaginal bleeding outside of the menstrual period, unpredictable bleeding episodes, bleeding after sexual interco
Localized muscle pain, trigger points
Hoarseness, Vocal Changes, Vocal Fatigue
Shoulder pain, weakness or loss of strength, limited range of motion, shoulder stiffness
Widespread musculoskeletal pain, fatigue, sleep disturbances, cognitive difficulties (fibro fog), mood changes
Fatigue, nausea, excessive thirst, kidney stones
Varies depending on the underlying cause
Rash, itching, swelling, fever, respiratory symptoms
Facial pain or pressure, nasal congestion, thick nasal discharge, post-nasal drip, cough, headache, fatigue, fever (in some
Irregular periods, excessive hair growth, acne, weight gain, ovarian cysts
Severe and persistent pain, changes in skin color or temperature, swelling, stiffness
Vision loss or blurry vision, eye pain with eye movement, color vision impairment, flashing lights or floaters
Abdominal or back pain, unexplained weight loss, hormonal imbalances
Headache, fever, neurological deficits
Lump, swelling, Facial numbness, tingling
Severe pain, swelling, bruising, difficulty straightening or bending the knee, deformity
Uncomfortable sensation in the legs, usually in the evening or at night, urge to move legs for relief
Small, painful blisters on the lips or around the mouth
Fatigue, swelling of the legs or ankles, decreased appetite, difficulty concentrating, increased urination or urine changes, b
Enlarged thyroid gland in the neck, swelling or visible protrusion, difficulty swallowing or breathing
Frequent urination, Increased thirst, Weight loss
Severe pain, visible deformity, swelling, inability to move the elbow, numbness or tingling in the hand/arm
Flu-like symptoms (fever, headache, fatigue), anxiety, confusion, hallucinations, difficulty swallowing
Itchy, red rash caused by contact with irritants or allergens
Excessive bleeding and bruising, prolonged bleeding from wounds or after dental work or surgery, spontaneous bleeding i
Redness, swelling, discharge from the wound
Recurrent, disabling migraines
Muscle weakness or fatigue, irregular heartbeat or palpitations, numbness or tingling, nausea or vomiting
Widespread musculoskeletal pain, fatigue, sleep disturbances
Mood swings, manic episodes, depressive episodes
Drowsiness, confusion, slowed breathing

headache, nausea, sensitivity to light, visual disturbances
Heel pain, tenderness, difficulty walking
Persistent, painful erection
High blood pressure without proteinuria (preeclampsia)
Fever, chills, back or flank pain, frequent urination
Euphoria, increased energy, dilated pupils, rapid heart rate, high blood pressure, risk of heart attack or stroke
Intense joint pain, swelling, redness
Excessive daytime sleepiness, sudden loss of muscle tone (cataplexy)
Swelling, pain, dry mouth, bad taste
Toothache, tooth sensitivity, visible pits or holes in the teeth, dark spots on the teeth, bad breath
Fatigue, weakness, pale skin, shortness of breath, tingling or numbness in the hands and feet, balance problems, sore tor
Lump or swelling in the testicles, pain or discomfort, changes in testicular size or shape
Curvature of the penis, pain during erections
Fatigue, jaundice, abdominal pain, nausea, vomiting
Sensation of a foreign object stuck in the throat, difficulty swallowing or speaking
Excessive tearing, eye discharge, recurrent eye infections
Pain or tenderness on the outer side of the elbow, weak grip strength, difficulty with forearm movements
Inattention, hyperactivity, impulsivity
Benign tumors in various organs, seizures, developmental delays, skin abnormalities
Fatigue, shortness of breath, chest pain or discomfort, heart palpitations, fainting or lightheadedness, swollen legs or ankle
Pelvic pressure or heaviness, urinary incontinence, bowel movement difficulties, discomfort or pain during intercourse
Sedation, relaxation, reduced anxiety, drowsiness, poor coordination, memory impairment, withdrawal symptoms (such as
Irregular or rapid heartbeat, palpitations, shortness of breath, chest pain or discomfort, dizziness or lightheadedness, fatigu
Recurrent episodes of wheezing, shortness of breath, chest tightness, coughing, especially at night or in response to trigg
Developmental delays, intellectual disability, distinct facial features (small jaw, low-set ears), heart defects
Fever, headache, body aches, rash
Excessive body weight, increased risk of chronic conditions
headache, dizziness, blurred vision
Swelling, pain, tenderness, difficulty eating
Difficulty seeing objects up close, blurred vision when focusing on near objects
Abdominal pain, jaundice (yellowing of the skin and eyes), unexplained weight loss, loss of appetite, fatigue, nausea, vomi
Painful, red lump or swelling on the eyelid, usually on the upper eyelid, sensitivity to light, blurred vision (if the chalazion at
Numbness or tingling in fingers or around the mouth, muscle cramps
Small, rough growths on the skin or mucous membranes, typically painless, may appear in clusters or as single lesions
Chronic back pain and stiffness, especially in the morning or after periods of inactivity, limited range of motion in the spine

Pain-relieving medications, relaxation techniques, stress management
Treating underlying cause, supportive care, medications to manage complications, dialysis (in severe cases)
Antibiotics (such as penicillin or erythromycin), rest, fluids, symptomatic relief
Regular monitoring and imaging tests to assess aneurysm size and growth, lifestyle modifications (e.g., blood pressure co
Medications (immunosuppressants), therapy, symptom management
Nonsteroidal anti-inflammatory drugs (NSAIDs), orthotic devices, physical therapy, stretching exercises, shoe modification
Blood tests, Supportive Measures, Gastric Decontamination, Antidote Administration, Hemodialysis
Behavioral therapy, addressing underlying nutritional deficiencies, addressing any medical complications, family support
Medical Abortion: Medication (such as mifepristone and misoprostol) is used to induce abortion, which can be done in the
Over-the-counter pain relievers, relaxation techniques, stress management
antibiotics, long-term medication
Surgical intervention (valve ablation or resection), catheterization, medications for symptoms and complications
Thyroid hormone replacement (levothyroxine), monitoring and management of symptoms
Medications (levodopa, dopamine agonists), physical therapy, deep brain stimulation
Observation and monitoring (in cases of mild or transient cryptorchidism), hormone therapy (to stimulate testicular descen
Observation, Surgical removal if necessary
Antibiotics, drainage (chest tube insertion, thoracentesis), surgical intervention (decortication), supportive care, treatment c
Watchful waiting, hernia truss, surgical repair, lifestyle changes
RICE method (Rest, Ice, Compression, Elevation), pain management, joint aspiration or drainage (in severe cases)
Prenatal exercises (such as stretching and strengthening exercises), good posture, heat or cold therapy, prenatal massag
Stretching and relaxation exercises, heat or cold therapy, over-the-counter pain relievers, muscle relaxants, physical thera
High-fiber diet, medications (pain relievers, antibiotics)
Moisturizing creams or lotions, avoiding hot showers or baths, using mild soaps
Detoxification (if necessary), counseling or therapy (such as cognitive-behavioral therapy, motivational interviewing), supp
Supportive care, physical therapy, assistive devices, medications for symptom management, gene therapies (in some cas
Over-the-counter antifungal creams, ointments, or suppositories (such as miconazole, clotrimazole, or terconazole), presc
Calcium and vitamin D supplements, regular exercise, medications to slow bone loss
Treating underlying cause, fluid restriction, medications to suppress ADH (vasopressin) secretion, addressing electrolyte i
Medications (acetylcholinesterase inhibitors, immunosuppressants), thymectomy (in some cases)
Physical therapy exercises, pain relievers, botulinum toxin injections (in severe cases)
Physical therapy, medications, nerve blocks
Rest, fluids (electrolyte solutions), bland diet, avoiding irritating foods, over-the-counter medications for symptom relief
Steroid eye drops, nonsteroidal anti-inflammatory drugs (NSAIDs), immunosuppressants
Treatment aims to manage symptoms, slow down disease progression, and address underlying causes. It may include: lif
Supportive care (including supplemental oxygen, pain management, and respiratory support), monitoring in a hospital sett
Treatment depends on the specific corneal disorder and may include: artificial tears or lubricating eye drops, antibiotic or a

Surgery, Radiation therapy
Wrist splints, avoiding repetitive hand movements, applying cold or hot compresses, gentle exercises, ergonomic adjustme
Vision aids, medications (injections into the eye), laser therapy, photodynamic therapy, surgical intervention
Vaginal moisturizers, Vaginal estrogen therapy, Lifestyle modifications
Physical therapy, pain medications, rest, surgery
Immunoglobulin therapy, corticosteroids, physical therapy
Prescription medications (topical or oral antiparasitic agents), washing clothes and bedding in hot water
Ventriculoperitoneal shunt placement, medication management for symptoms
Pain management, increased fluid intake, medication to facilitate stone passage, minimally invasive procedures or surgery
Treatment depends on the specific pituitary disorder and may involve medications, surgery, hormone replacement therapy
Artificial tears, lubricating eye drops, sunglasses for UV protection, surgical removal (in severe cases)
Rest, fluids, over-the-counter medications for symptom relief, antiviral medications (in some cases)
Antibiotics (azithromycin, doxycycline), pain management, supportive care
Intravenous fluids to prevent dehydration, anti-nausea medications, nutritional support, rest, monitoring for weight loss and
Management of blood sugar levels, blood pressure control, cholesterol management, regular eye examinations, laser treat
Blood transfusions, bone marrow-stimulating medications, immunosuppressive therapy, stem cell transplant (in severe cas
Medications to remove copper from the body (chelators), dietary changes, liver transplant (in severe cases)
Medical detoxification, supportive care, counseling, rehabilitation programs
Cognitive-behavioral therapy for insomnia (CBT-I), sleep hygiene practices (such as maintaining a regular sleep schedule,
Antibiotics (oral or intravenous) to treat the underlying bacterial infection, pain relievers (such as acetaminophen or ibuprof
Surgery, Radiation therapy
Medications, physical therapy, surgery (in severe cases)
Hydration,Saliva stimulation, Stone removal
Rest, pain relievers, throat lozenges, antibiotics (if bacterial infection), symptomatic relief
Nonsteroidal anti-inflammatory drugs (NSAIDs) to reduce inflammation and pain, colchicine (for recurrent or persistent per
Immediate medical attention, activated charcoal administration, supportive care, specific antidotes
Hormone replacement therapy with synthetic thyroid hormone (levothyroxine), regular monitoring of thyroid hormone levels
Regular monitoring and follow-up, identification and elimination of potential irritants (such as tobacco or alcohol), improving
Topical antifungal creams or ointments, medicated shampoos, corticosteroid creams
Shunt placement (to divert excess cerebrospinal fluid), endoscopic third ventriculostomy, medication (in some cases)
Behavioral therapy, counseling, support groups, medication, detoxification
Antibiotics, ear drops, surgical intervention (in some cases)
Artificial tears, eye lubricants, surgical removal (in severe cases)
Treating underlying liver disease, medications to manage symptoms, dietary modifications
Nonsteroidal anti-inflammatory drugs (NSAIDs), pain relievers, local heat or ice application, avoiding activities that worsen
Treatment depends on the underlying cause (such as allergies, sinusitis, or nasal polyps), and may include medications (s
Eye drops to lower intraocular pressure (e.g., prostaglandin analogs, beta blockers, alpha agonists, carbonic anhydrase in
Increasing protein intake through diet (lean meats, fish, dairy, legumes, nuts), protein supplements, nutritional counseling,
Treatment of underlying cause, platelet transfusion (if severe), medication (corticosteroids, immunosuppressants), avoidin
Topical medications (minoxidil), oral medications (finasteride), steroid injections, hair transplant surgery, wigs or hairpieces
Low-dose corticosteroids, nonsteroidal anti-inflammatory drugs (NSAIDs)
Surgery, chemotherapy, radiation therapy, targeted therapy
Bed rest, blood pressure monitoring, frequent prenatal visits, medication (such as antihypertensive drugs), magnesium sul
Medications to relieve symptoms and improve heart function (such as beta-blockers, calcium channel blockers, and disopy
Lifestyle changes (weight loss, healthy diet, regular exercise), management of underlying conditions, medication as neede
Treatment depends on the type and extent of organ damage
Supportive Measures, Gastric Decontamination, Antidote Administration, Hemodialysis
Pain management, rest, immobilization (splinting or bracing), physical therapy
Surgery (lumpectomy or mastectomy), radiation therapy, chemotherapy, hormone therapy, targeted therapy
High-dose corticosteroids, plasma exchange (to remove antibodies from the blood), immunosuppressive therapy (such as
Glasses, Patching therapy, Vision therapy, Botox injections, Surgical intervention
Medications (diuretics, anti-vertigo drugs), lifestyle changes
Observation and monitoring (for small, non-secreting tumors that are not causing significant symptoms), medication (to ma

diagnostic tests, intravenous fluids and medications to stabilize the patient, bowel rest, resection, bypass procedure, poter
Observation, surgical drainage (in some cases)
Surgery (hysterectomy), radiation therapy, chemotherapy, hormone therapy
Pain medications, hormonal therapies, surgery
Treating underlying cause, medications, ureteral stent, surgery
Corticosteroids, antiviral medications, eye protection, physical therapy
Antibiotics, warm compresses, surgical drainage (in severe cases)
Medications, bladder training, lifestyle changes
Smoking cessation (the most important intervention), medications to manage symptoms (such as bronchodilators, inhaled
Adjusting medication dosage, switching to alternative medications
Treatment depends on the type and severity of vasculitis. It may include corticosteroids, immunosuppressive medications

Vitamin C supplementation, dietary changes, oral hygiene maintenance
Pain management, increased fluid intake, medications to help pass the stones, procedures or surgery
RICE method (Rest, Ice, Compression, Elevation), splinting, pain medication, physical therapy, surgery (in severe cases)
Surgical intervention (pneumatic retinopexy, scleral buckle, vitrectomy), laser therapy, cryotherapy, gas or silicone oil injec
Antibiotics (to treat streptococcal infections), anti-inflammatory medications, medications for heart complications
Bronchodilators (inhaled medications), corticosteroids, supplemental oxygen (if needed)
Topical medications (such as lidocaine or estrogen creams), nerve blocks, physical therapy (including pelvic floor muscle
Treatment is based on the specific symptoms and can include a combination of psychotherapy, nutritional counseling, me
Erythropoiesis-stimulating agents (ESA), iron supplementation, blood transfusions (in severe cases)
Corticosteroids, immunosuppressants, wound care
Antibiotics (usually penicillin), treatment of complications, regular follow-up and testing
Antibiotics, wound care, surgical intervention (in severe cases)
Evaluation to rule out underlying causes (such as hormonal imbalances, polyps, infections, or uterine abnormalities), horm
Physical therapy, trigger point injections, dry needling, medications (such as pain relievers, muscle relaxants), relaxation t
Voice Rest, Speech Therapy, Surgical Removal
Non-surgical treatment options: Rest, ice or heat therapy, pain medications, physical therapy exercises, Arthroscopic surg
Multidisciplinary approach: Medications for pain management (such as analgesics, antidepressants, and anticonvulsants),
Treating underlying cause, hydration, medications
Treatment of the underlying condition (e.g., medication adjustments, surgery, trauma management, tumor removal, inflam
Discontinuation of the offending drug, supportive care, antihistamines, corticosteroids (in severe cases)
Home remedies (such as nasal saline irrigation, steam inhalation), over-the-counter pain relievers (such as acetaminophe
Lifestyle changes (diet, exercise, weight management), hormonal contraceptives, fertility treatments (if needed)
Medications (such as pain relievers, corticosteroids, anticonvulsants), physical therapy, sympathetic nerve blocks, spinal c
High-dose intravenous corticosteroids, treatment of underlying cause, symptom management, visual rehabilitation
Surgery (adrenalectomy), chemotherapy, radiation therapy, targeted therapy, hormone replacement therapy
Antibiotics, surgical drainage or removal of the abscess, supportive care
Surgery, Radiation therapy
Immobilization (splint, cast, or brace), pain management, physical therapy, exercises to restore mobility and strength, pote
Lifestyle changes (such as regular exercise, avoiding triggers like caffeine), good sleep hygiene (maintaining a regular sle
Antiviral medications (topical or oral), pain relievers, antiviral creams, self-care measures
Management of underlying conditions (such as diabetes or high blood pressure), lifestyle modifications (such as healthy d
Treatment depends on the underlying cause (medication, radioactive iodine therapy, surgery)
Insulin therapy, Blood sugar monitoring, Healthy eating, Regular exercise
Closed reduction (realigning the bones without surgery), immobilization (splint or cast), physical therapy, pain managemen
Immediate medical attention (post-exposure prophylaxis), wound care, administration of rabies vaccine and immunoglobul
Avoiding the trigger, corticosteroid creams or ointments, antihistamines
Replacement therapy with clotting factor concentrates, medications to control bleeding, physical therapy, joint protection m
Wound care (cleaning, dressing changes), antibiotics (if infection is present), surgical interventions
Medications (such as preventive medications, pain relievers, triptans), lifestyle modifications (such as identifying triggers, s
Treatment of underlying cause, medications to reduce potassium levels, dietary modifications, dialysis (in severe cases)
Medications (such as pain relievers, antidepressants, anticonvulsants), physical therapy, cognitive-behavioral therapy, stre
Medications (mood stabilizers, antipsychotics), therapy
Immediate medical attention, supportive care, antidote administration

pain relief medication, rest, cold compress
Rest, stretching exercises, orthotic devices, physiotherapy
Medical intervention (aspiration, medication, surgery)
Monitoring blood pressure, lifestyle modifications (such as salt restriction, regular exercise), medication (such as antihyper
Antibiotics (such as fluoroquinolones, cephalosporins, or trimethoprim-sulfamethoxazole) to target the specific bacteria ca
Medical detoxification, counseling, behavioral therapies, support groups
Medications (nonsteroidal anti-inflammatory drugs, colchicine), lifestyle changes
Stimulant medications, antidepressants, lifestyle modifications, scheduled naps
Hydration,Saliva stimulation, Stone removal
Dental fillings, crowns, root canal treatment, tooth extraction (in severe cases), oral hygiene practices (brushing and flossi
Vitamin B12 supplementation (such as oral supplements or injections), dietary changes to include B12-rich foods (such as
Surgery (orchiectomy), chemotherapy, radiation therapy, surveillance (for some cases)
Medications, traction therapy, surgery
Supportive care, removal or avoidance of the toxic substance, management of symptoms
Immediate medical attention, removal of the foreign body, evaluation for any complications
Tear duct probing, dilation, surgical correction
Rest, ice or cold therapy, compression, elbow brace or strap, pain relievers, physical therapy exercises, corticosteroid inje
Behavioral therapy, parent training programs, medication (such as stimulants or non-stimulants), individualized education
Medications (anti-seizure, behavioral, etc.), surgery (for tumor removal), therapy (physical, occupational, speech), educati
Medications (such as diuretics, beta-blockers, or calcium channel blockers), surgical interventions (such as balloon valvul
Pelvic floor exercises, pessary use, hormone therapy, surgical repair (in severe cases)
Gradual tapering off sedatives, hypnotics, or anxiolytics under medical supervision, counseling or therapy (such as cogniti
Medications (antiarrhythmics, anticoagulants), electrical cardioversion, catheter ablation, lifestyle changes
Long-term control medications (such as inhaled corticosteroids, long-acting beta-agonists), quick-relief medications (such
Supportive care, addressing associated medical issues, early intervention programs, palliative care
Supportive care, symptom management, prevention of mosquito bites
Antifungal medication eg Amphotericin B, Fluconazole, supportive care
medication, diet change, exercise
Warm compresses, Saliva stimulation, Sialagogues, Stone removal
Eyeglasses, contact lenses, refractive surgery
Surgery, Radiation therapy, Chemotherapy, Targeted therapy, Immunotherapy, Radiofrequency ablation, Transarterial che
Warm compresses (to help soften and promote drainage of the blocked oil gland), gentle massage of the affected area, ey
Calcium and vitamin D supplements, treating underlying causes, intravenous calcium (in severe cases)
Topical treatments (salicylic acid, cryotherapy), laser therapy, surgical removal, immune therapy (for persistent or recurren
Medication (such as nonsteroidal anti-inflammatory drugs, corticosteroids, disease-modifying antirheumatic drugs), physic

A healthy stomach is a healthy body'. Many diseases have their roots in the digestive system. Constipation is a very comm
Soak 6-8 raisins (kishmish) in hot water (depending on the age). When cool, crush well and strain. When given routinely e
Boil a teaspoon of fennel seeds (saunf) in a cup of water. Boil for 2-3 minutes and keep it to cool for 15-20 minutes. Strain
A lemon a day keeps the cold away. For a bad cold, the juice of two lemons in ½ a litre (2½ cups) of boiling water sweeter
Apply clove oil (laung ka tel) on the affected parts.
Use raw onion juice as ear drops. Put two drops of lukewarm neem oil inside the ear.
Soak 2 tablespoon fenugreek seeds (methi dana) in water overnight. In the morning grind into a fine paste. Apply all over s
Add ¼ teaspoon salt, 3 teaspoon brown sugar or ordinary sugar and 2 teaspoon lime juice to 1 cup of water, mix well and
For diabetes, diet restriction & light exercise like walking is a must as this controls the sugar level. Grape fruit is a splendid
Eat plenty of vegetables like lettuce (salaad patta), tomato and fruits. Use the following fruits and vegetables sparingly and
Boil ¼ teaspoon powdered cardamom (chhoti illaichi) seeds in thin tea water and drink. Mix 1/8 teaspoon nutmeg (jaiphal)
Turmeric (haldi), burnt, and finely powdered, can be used as toothpowder.
Mix 3 teaspoon lime juice, ¼ teaspoon powdered black pepper and 1 teaspoon honey in 1 cup water. Drink for 3 months.
Combine 1 teaspoon each powdered ginger (adrak), powdered cumin (jeera) and powdered cinnamon (dalchini) with hone
Insert ¼ teaspoon nutmeg (jaiphal) powder inside a ripe banana and eat. Dog-bite Take ½ teaspoon powder of black cumi
Extract 1 teaspoon juice from mango leaves. Slightly warm and use as ear drops when bearably hot.
Heat 2 teaspoon mustard oil. Add ½ teaspoon carom (ajwain) seeds and one or two flakes of crushed garlic (lasan). Boil ti
Heat 1 teaspoon each of garlic (lasan) and carom seeds (ajwain) in 2 tablespoon gingelly oil (til ka tel) till they turn red in c
Powder equal quantities of liquorice (mulathi) and cumin (jeera). Take ¼ teaspoon every day along with 1 teaspoon honey
Boil ¼ teaspoon powdered cardamom (chhoti illaichi) seeds in thin tea water and drink.
Apply fresh lime juice on the head. Massage well before showering off.
Rub a nutmeg (jaiphal) against a smooth stone slab with a little water and make a paste. Apply on affected parts. (Note: It
Take one teaspoon tomato juice, ½ teaspoon lemon juice, a pinch of turmeric (haldi) powder & a little gram flour (besan). I
Lavender oil offers gentle relief for tired and strained eyes. Add a drop of lavender oil to 500 ml (2½ cups) of water and sh
Mix seeds of cardamom (chhoti illaichi) along with 1 tablespoon honey. Eat every day. Boil 2 tablespoon fenugreek (methi
A hot poultice of carom seeds (ajwain) used as dry fomentation for hands and feet.
Take a glass of grapefruit and lemon juice in equal parts to dispel fatigue and general tiredness after a day's work.
Mash 1 ripe banana along with a little curd and water; take twice a day.
Mix equal quantities of glycerin and lemon juice. Apply every night before going to bed. This mixture can be made and sto
Soak feet in strong tea for 20 minutes every day until the smell disappears. To prepare your footbath, brew two tea bags in
Tie a fresh slice of lemon over the corn (painful area) and keep it all night. Massage castor oil on the corns every morning
Keeping your feet clean and dry is enough to discourage the growth of this fungal infection. Remember, it is infectious and
Soak 3 tablespoon carom (ajwain) seeds in an adequate quantity of lime juice and dry in the shade. When fully dried, pow
Extract 1 teaspoon each juice of tulsi leaves and bel flowers. Add 1 teaspoon honey. Take twice a day. Tea made by boilin
Boil 1 tablespoon tulsi leaves with 1 teaspoon powdered cardamom (chhoti illaichi) in 2 teacups water. Take 1 cup of this d
Mix 1 teacup fresh lemon juice in tender coconut water and drink.
Some people are allergic or have intolerance for milk, milk products and wheat, wheat products but go through life without
Avoid heavy (fried), spicy food. Do not eat very large meals, instead eat small meals. Try to eat a little, every 2 hours, so th
A decoction of 15-20 tulsi leaves taken along with a pinch of rock salt (kala namak) helps in the cure.
Soak cumin seeds (jeera) in lime juice overnight. Keep this mixture under the sun till completely dry. Bottle it. Chew ½ teas
Soak 1 teaspoon each of powdered amla, coriander seeds (saboot dhania) and sandalwood in a cup of water overnight. S
Mix mustard oil and rectified alcohol (1 part oil to 40 parts alcohol) and use as a lotion. Make a poultice of ground fenugree
Grind fresh fenugreek leaves (methi) to a paste and apply the leaf paste over the scalp before a bath.
Take a handful of neem leaves and boil them in 4 cups water. After cooling and filtering, use the decoction for rinsing hair.
Apply a little almond oil (badam ka tel) on scalp frequently and massage.
Wet a lemon half and rub lemon juice into the scalp well. Wash off after it turns dry. Grind 1 tablespoon each, pulp of amla
Bathe the hair in 1 cup coconut milk twice or thrice a week for a few months.
Grind the fresh amla fruits into a fine paste and apply on affected parts. Grind 2 to 3 cloves (laung) into a fine paste along

Roast some ajwain dry on a tawa. Tie it in a muslin bag and sniff frequently. Make a paste of 2-3 powdered cloves (laung)
Mix 1 teaspoon finely ground cinnamon (dalchini) in 1 teaspoon water and apply on the affected parts. Headache on one s
Add 1 tablespoon mint (pudina) leaves to 1 cup water. Take twice or thrice a day.
Boil ½ teaspoon sandalwood powder in 1 cup water. Drink thrice daily.
Boil ¼ teaspoon powdered cardamom (chhoti illaichi) seeds in thin tea water and drink.
Eat ¼ teaspoon asafetida (hing) along with one large raisin (kishmish) every day. Heart weakness w Regular intake of ripe
Apply some sandalwood oil on the forehead.
Have the cooling drink 'panna'. To prepare this, cook unripe or green mangoes in hot ashes. Extract the pulp and mix with
Mix equal amounts by weight of carom seeds (ajwain), onion seeds (kalaunji) fenugreek seeds (methi daana) and saboot i
1 to 2 teaspoon fresh juice of coriander (dhania) leaves is mixed in 1 cup buttermilk and taken 2-3 times.
Drink ½ glass water, slowly. w Keep a teaspoon of sugar in your month and suck slowly. Swallow ½ teaspoon mustard se
Restrict salt intake and drink plenty of fluids (at least 8-10 glasses of water daily) Drink curry leaves (curry patta) juice initia

ampicillin and sulbactam
telavancin
lefamulin (oral/injection)
ceftolozane and tazobactam
adalimumab
ustekinumab
Ustekinumab Brand name: Stelara
adalimumab
secukinumab
ixekizumab
risankizumab
guselkumab
tildrakizumab
infliximab-axxq
halobetasol and tazarotene topical
guselkumab Brand name: Tremfya
halobetasol and tazarotene topical
infliximab-dyyb
ixekizumab Brand name: Taltz
infliximab-abda
risankizumab
secukinumab Brand name: Cosentyx
tildrakizumab
calcipotriene topical
calcipotriene topical
acitretin
betamethasone topical
acitretin
betamethasone and calcipotriene topical
betamethasone and calcipotriene topical
cyclosporine (oral route)
methotrexate (injection)
methotrexate (oral)
betamethasone and calcipotriene topical
methotrexate (injection)
tacrolimus topical
calcitriol (topical)
coal tar topical
prednisolone
methotrexate (injection route, subcutaneous route)
betamethasone and calcipotriene (topical application route)
calcitriol (topical)
cyclosporine (oral route)
methoxsalen (oral)
coal tar topical
betamethasone topical
adalimumab-afzb (subcutaneous route)
adalimumab-atto (subcutaneous route)
Pramoxine and Hydrocortisone Rectal Cream
Pramoxine and Hydrocortisone Rectal Cream

anthralin (topical route)

anthralin (topical route)
coal tar topical
coal tar (topical route)
brodalumab
halobetasol topical
calcipotriene topical

Coal Tar and Salicylic Acid
coal tar (topical route)
adalimumab-adbm (subcutaneous route)
coal tar topical
coal tar (topical route)
anthralin (topical route)
anthralin (topical route)
coal tar topical
Pramoxine and Hydrocortisone Foam
coal tar (topical route)
coal tar (topical route)
adalimumab-bwwd (subcutaneous route)
adalimumab-fkjp (subcutaneous route)
hydrocortisone and pramoxine (topical/rectal)
hydroxyurea
adalimumab-adaz (subcutaneous route)
clobetasol topical
coal tar topical
infliximab-qbtx (intravenous route)
calcipotriene
coal tar (topical route)
methoxsalen (oral)
coal tar topical
coal tar (topical route)
coal tar topical
hydrocortisone acetate and pramoxine hydrochloride
coal tar topical
Pramoxine and Hydrocortisone Cream, Gel, and Ointment
Pramoxine and Hydrocortisone Rectal Foam

brodalumab
calcipotriene topical
coal tar topical
coal tar topical
betamethasone and calcipotriene topical
adalimumab-aqvh (subcutaneous route)
anthralin (topical route)
anthralin (topical route)
etanercept
hydroxychloroquine
hydroxychloroquine
certolizumab
golimumab
upadacitinib

rituximab, rituximab-arrx, rituximab-pvvr, rituximab-abbs Brand names: Rituxan , Riabni , Ruxience , Truxima
certolizumab
golimumab
upadacitinib Brand name: Rinvoq
leflunomide
leflunomide
abatacept
rituximab
tofacitinib Brand names: Xeljanz, Xeljanz XR
Tofacitinib Extended-Release Tablets
golimumab
abatacept
auranofin
sarilumab
auranofin
tofacitinib Brand names: Xeljanz , Xeljanz XR
alemtuzumab
camphor, menthol, and methyl salicylate (topical)
penicillamine
penicillamine
penicillamine
etanercept
etanercept-ykro (subcutaneous route)
interferon gamma-1b
penicillamine
rituximab
sarilumab
clozapine
iloperidone
aripiprazole (injection)
clozapine
paliperidone (oral)
chlorpromazine (oral/injection)
paliperidone (injection)
loxapine (oral)
olanzapine (injection)
paliperidone palminate
thioridazine
aripiprazole lauroxil (intramuscular route)
clozapine
risperidone (injection)
thiothixene
amisulpride
clozapine
loxapine (inhalation)
asenapine (transdermal)
paliperidone palmitate
levetiracetam (oral/injection)
diazepam (rectal route)
phenytoin (oral)
topiramate
diazepam nasal
lacosamide (oral/injection)

midazolam (oral)
midazolam (nasal)
vigabatrin
vigabatrin Brand names: Sabril , Vigadrone
oxcarbazepine
zonisamide
zonisamide
levetiracetam (oral route)
topiramate
primidone
primidone
eslicarbazepine
diazepam Brand names: Diastat , Diastat AcuDial
ethosuximide
lacosamide (oral/injection)

tiagabine
oxcarbazepine
diazepam rectal
topiramate
pyridoxine (vitamin B6)
brivaracetam (oral/injection)
levetiracetam (oral route)
topiramate
ethosuximide
Levetiracetam Tablets
levetiracetam
perampanel
phenytoin (oral)
Levetiracetam Extended-Release Tablets
cenobamate
progesterone
pyridoxine (vitamin B6)
pyridoxine (oral route, injection route)
brivaracetam (oral/injection)
methsuximide
cenobamate
eslicarbazepine
methsuximide
perampanel
zonisamide
ganaxolone
vigabatrin
ganaxolone
clopidogrel
clopidogrel
alteplase
alteplase
nimodipine
oseltamivir
oseltamivir
zanamivir
zanamivir

peramivir
nitrofurantoin
nitrofurantoin
nitrofurantoin
methenamine
trimethoprim
hyoscyamine, methenamine, methylene blue, phenyl salicylate, Sodium biphosphate monobasic
methenamine
nitrofurantoin (oral route)
cefadroxil
cefadroxil (oral route)
Methenamine, Phenyl Salicylate, Methylene Blue, Benzoic Acid, Hyoscyamine
hyoscyamine, methenamine, methylene blue, phenyl salicylate, sodium biphosphate
Methenamine, Sodium Phos Mono, Phenyl Salicylate, Methyl Blue, Hyoscyamine
hyoscyamine, methenamine, methylene blue, and sodium biphosphate
hyoscyamine, methenamine, methylene blue, phenyl salicylate, sodium biphosphate
hyoscyamine, methenamine, methylene blue, and sodium biphosphate
hyoscyamine, methenamine, methylene blue, phenyl salicylate, sodium biphosphate
acetohydroxamic acid
hyoscyamine, methenamine, methylene blue, phenyl salicylate, sodium biphosphate

cefiderocol
imipenem, cilastatin, and relebactam
cefiderocol
hyoscyamine, methenamine, methylene blue, phenyl salicylate, sodium biphosphate
hyoscyamine, methenamine, methylene blue, phenyl salicylate, sodium biphosphate
hyoscyamine, methenamine, methylene blue, and sodium biphosphate
acetohydroxamic acid
meropenem and vaborbactam
hyoscyamine, methenamine, methylene blue, phenyl salicylate, sodium biphosphate
plazomicin
trimethoprim
imipenem, cilastatin, and relebactam
hyoscyamine, methenamine, methylene blue, phenyl salicylate, and sodium phosphate (oral route)
hyoscyamine, methenamine, methylene blue, phenyl salicylate, sodium biphosphate
hyoscyamine, methenamine, methylene blue, phenyl salicylate, sodium biphosphate
atropine, hyoscyamine, methenamine, methylene blue, phenyl salicylate, and benzoic acid (oral route)
methenamine, sodium phosphate, monobasic, anhydrous, phenyl salicylate, methylene blue and hyoscyamine sulfate
methenamine, sodium phosphate, monobasic, monohydrate, phenyl salicylate, methylene blue, and hyoscyamine sulfate
Methenamine, Sodium Phos Mono, Phenyl Salicylate, Methyl Blue, Hyoscyamine
Methenamine, Sodium Phos Mono, Phenyl Salicylate, Methyl Blue, Hyoscyamine
hyoscyamine, methenamine, methylene blue, phenyl salicylate, and sodium phosphate (oral route)
hyoscyamine, methenamine, methylene blue, phenyl salicylate, and sodium phosphate (oral route)
meropenem and vaborbactam
Methenamine, Sodium Phos Mono, Phenyl Salicylate, Methyl Blue, Hyoscyamine
Methenamine, Sodium Phos Mono, Phenyl Salicylate, Methyl Blue, Hyoscyamine
plazomicin
phentermine
phentermine
bupropion and naltrexone
orlistat
orlistat
orlistat

phendimetrazine
diethylpropion
phentermine and topiramate
liraglutide
human chorionic gonadotropin (HCG) (injectable)
semaglutide
bupropion and naltrexone
phentermine and topiramate
phendimetrazine (oral route)
human chorionic gonadotropin (HCG) (injectable)
phentermine
phentermine (oral route)
benzphetamine
fenfluramine
phendimetrazine tartrate
setmelanotide
setmelanotide

High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used

High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
High Blood Pressure (Hypertension) Other names: Drug-Induced Hypertension High blood pressure is a term that is used
